United We Stand: A Collaborative Approach to Legacy Print Collections

Matthew Revitt, University of Maine
Deb Rollins, University of Maine

NELA Annual Conference October 21, 2013

www.maineinfonet.org/mscs/
What is Shared Print Anyway?

- Holding libraries commit to retain designated materials for a specified time period so that partner libraries may rely on their continued availability.
U.S. Print Retention Projects

- West Storage Trust – Western US – Journals
- CIC – Large Midwest universities – Journals
- ReCAP – Columbia, Princeton, NYPL
- HathiTrust
- Scholars Trust - AESERL & WRLC – Journals
- North East Regional Library Print Management Project – Monographs & Journals
- Maine Shared Collection Strategy – Monographs & Journals

- Center for Research Libraries – PAN network

www.maineinfonet.org/mscs
Drivers for Print Retention

- Space issues – lack of it!
- Budget cuts – where’s all the money gone?
- Cost per usage – why did we buy this again?
- Availability of electronic resources – paperless library?
Building on Collaboration and Trust

- MaineCat has encouraged resource sharing
- State-wide delivery – 1.25 millions items/year
- Colby, Bates and Bowdoin are consciously building a shared collection of new print materials and e-resources
- Trust in commitments and continued access
Project Background

- Originated with the Larger Libraries Group
- Most libraries were running out of space and unlikely to get additional storage
- Wanted a shared approach to managing legacy print collections for the long-term
- Looking to be leaders in the print collection space
Project Partners

Colby  Bates  The University of Maine
Bowdoin  University of Southern Maine  Maine INFONET
Bangor Public Library  Portland Public Library  MSL (Maine State Library)

www.maineinfonet.org/mscs
Grant Proposal

IMLS grant of $821,065 to create a shared print collections strategy:

- Create a collection analysis system
- Examine the presence of large scale digital collections (HathiTrust and Internet Archive) as a determiner of what to keep in print
- Develop a strategy to make retention decisions at scale
- Integrate E-book-On-Demand and Print-On-Demand
Grant Summary

- Monographs and journals (Government documents are excluded)
- The goal is to determine which titles should be retained long-term and by whom
- Libraries may discard materials or not, once retention decisions are made (downsizing is not the predominant focus)
- Provide a framework for other libraries to participate once the initial grant period is complete
- Disclose our retention decisions locally and to the world
- Be part of the national conversation

www.maineinfonet.org/mscs
Project Management

- Project Team: Program Manager, Technology Director, Project PIs & Systems Librarian
- Directors’ Council
- Collection Development Committee
- Technical Services Committee
- National Advisory Board

www.maineinfolnet.org/mscs
MSCS Goals

- Identify long-term retention commitments from libraries
- Implement on-demand services in union catalog
- Define sustainable business model for beyond grant & current partners
MSCS Guiding Questions

- What monographs should be designated for long-term retention?
- What is an equitable and/or common-sense distribution of retention responsibilities?
- What monographs are candidates for incorporating into POD/EOD services by virtue of HathiTrust or Internet Archive public domain material?
- What monograph copies could optionally be deselected, once retention decisions have been finalized?
Data – Data Starting Points

- How many copies of a particular work are owned by partner libraries?
- How many of those are circulating copies?
- How often has the title circulated? What was the last circulation date?
- How many titles/copies are uniquely held in the group? In Maine? In WorldCat?
- How do subject strengths compare across the group?
- Which titles are represented in HathiTrust, Internet Archive?
- Overlap between general and special collections
- Others to be determined from combined data set

www.maineinfonet.org/mscs
The Data - Where is it?

- Local
  - 5 ILS catalogs with 3 catalogs merging soon
    - 8 libraries
    - Innovative Interfaces, Inc. (III)
- State
  - MaineCat
    - INN-Reach catalog of more than 100 Maine libraries
- National
  - OCLC
  - HathiTrust
  - Internet Archive

www.maineinfonet.org/mscs
Data – The Details

- OCLC reclamation
  - Cleaned up holdings and OCLC numbers
  - Facilitated match across partners
- Local outputs (to Sustainable Collection Services)
  - Monographs
  - Exclusions
- Local outputs (to Systems Librarian)
  - Serials
The Data – Extracted Fields

- Item record number
- Created date
- Barcode
- Itype (value in the item that defines how it circulates)
- Volume and copy
- Call number
- Location
- Total checkout and total renewal
- Year to date circulation

- Last year circulation
- Last checkin
- Out date
- Last out date
- Reserve notes
- Internal use count
- Icode2 (Contributed to union catalog)
- Circulation Status
- Complete bib data
Data – SCS Actions

- Additional data cleaning—normalizing, de-duping, and filling in missing data
- Matched titles to external data sources—OCLC WorldCat (U.S. and State Holdings), HathiTrust Public Domain and In-Copyright items, and Internet Archive
- Consulting support
- Data reports
High Level View of the [Monograph] Data

Not Widely Held Titles
Step 1

Widely Held Titles
Step 2

Number of MSCS Libraries Holding Title

1,655,421

1,064,333
Step 1 – Further Divisions

- Limited to publication date <2003

- Commit To Retain – CTR – if:
  - Any circulation, internal, or reserve use OR
  - “local interest” title-sets OR
  - Special Collections items OR
  - Specific edition held in 9 or fewer libraries in the U.S.

- Needs Further Examination – NFE – if:
  - Zero circulations
“Local Interest” Rules Applied

Rule 1: General: ‘Maine’ will be searched in title, author, series, and all subject fields

Rule 2: Published in Maine: Search bib records for indication of Maine as place of publication

Rule 3: Maine Author or Artists: Location code meaut in a Maine State Library record, Authors, American—Maine in a subject field, Artists, American—Maine in a subject field

Rule 4: Maine Local History: Title is classed in: F 16-30 (Maine History), 917.41 & 974.1 & meanx

Rule 5: Major Colleges & Universities: Keywords/phrases searched e.g. Bowdoin College

Rule 6: Industries: Keywords/phrases searched (combined with Maine) e.g. Paper Industry

Rule 7: Marine & coastal studies: Keywords/phrases & classifications e.g. QH 92-92.2 Marine Biology (Atlantic Coast)

Rule 8: Native Americans: Keywords/phrases e.g. Abenaki

Rule 9: Places/Populations: Keywords/phrases e.g. Acadia

Rule 10: Religious groups: Keywords/phrases e.g. Free Will Baptists

</tbody>
</table>
Drowning in the Data

- Too many CTRs?
- Piles of books
- Too many lists!
- Publishers (29,331 items had commitments reversed)
- Reference materials
Step 2

- **Not Widely Held Titles**
  - Needs Further Examination
    - 392,382
  - Commit to Retain
    - 1,076,188

- **Widely Held Titles**
  - In-Scope for Step 2
    - Titles published < 2003
    - Circulating Titles
    - No Special Collections
    - No Hathi PD Titles
    - No Titles with zero aggregate use

Number of MSCS Libraries Holding Title
Step 2 Questions

- Do we need to retain a minimum or maximum number of title-holdings?
- How to allocate holdings responsibility?
  - Circulation policies
  - Library type
  - Subject strengths
  - CTRs made in Step 1
Data – Serials are Different

- All records coded format “s”
  - Analysis by MSCS Systems Librarian
  - Includes many book series as well as journals/magazines
  - Inconsistent across MSCS institutions
- Total number of serials records 37,887
- Total number of deduped serials records 27,912
MSCS Goals for Serials

• Don’t duplicate effort
  • Relative safety of publisher digital collections
  • Digital Services e.g. Portico

• Act as ‘good steward’ locally and nationally
  • CTR “local interest” titles
  • CTR “not widely held” titles
  • CTR Special Collections titles
Serials Decisions

- 27,912 title-sets (book series and journals)
  - Not CTR ~ 64%
    - 4,198 digital collections overlap
    - 14,771 >50 in OCLC, local interest/special collections
  - CTR <36%
    - 6,134 local interest and Special Collections
    - 4,439 <50 OCLC holdings
      - MSCS overlap only 3% within this set (~130)
      - Individual library review
## Serials <50 OCLC review example

Ebook-On-Demand/Print-On-Demand Service Model

- MSCS libraries are using large-scale digital collections like the HathiTrust and Internet Archive in the management of their print collections:
  - Developing criteria for relying on digital copies as surrogates
  - Integrating 1.6 million HathiTrust Public Domain title records and Google Books links into our union catalog
  - Print-On-Demand request service

www.maineinfonet.org/mscs

Subject: Confederate States of America -- History.
Governance and Business Model

- A Memorandum Of Understanding has been developed to guide the ongoing work
  - 15 year retention commitment
  - MOU and commitments reviewed every 5 years
  - Executive Committee will provide governance
  - Collections and Operations Committee will determine retention, holding disclosure, and access/delivery
- Different levels of membership
  - Collection Holders
  - Collection Builders
  - Supporting Members
How Do You Replace the King?
Storage

- MSCS chose a distributed model rather than a centralized storage facility
  - Ownership and storage will remain with the owning library
  - There are no different circulation or Interlibrary Loan rules or workflows for titles with retention commitments
Lessons Learned

- Things won’t go as planned
- Perfection is not possible
- Need for a dedicated project manager position
- Public libraries are different!
- Libraries can cooperate
Legacy of MSCS

- Cooperative collection development amongst partners
- Extend membership to other Maine libraries
- Part of wider shared print community
- Extend model to other projects
Thank you!
